

# Tajikistan axxon energy

Why is electricity important in Tajikistan?

Electricity is an integral part of Tajikistan's economy, and providing a clean, affordable and secure supply of electricity has been of paramount importance for the government since independence. Despite its energy potential, Tajikistan's energy sector is susceptible to supply shocks.

Is Tajikistan part of EU4Energy?

Tajikistan is one of the focus countries of the EU4Energy programme, which is being implemented by the IEA and the European Union along with the Energy Community Secretariat and the Energy Charter Secretariat.

How is Tajikistan generating energy?

At the same time, the rest of Tajikistan is mainly heated through electricity, biomass and coal. Meanwhile, in Dushanbe projects are being implemented with EBRD to finance the private sector (mostly sports facilities), providing loans to establish RES and implement energy-efficient measures.

What is Axxon Energy?

Axxon Energy is a Nigerian company founded in 2001 with a philosophy of providing high quality and excellent products/services to clients and customers around the world. Axxon Energy has gained extensive engineering and production experience over the past 21 years and maintains a practical and professional approach globally.

Is Tajikistan a net exporter of electricity?

At the annual level Tajikistan is a net exporter of electricity, but there are seasonal shortfalls of supply. The network losses calculated from the official energy statistics are relatively high, being 14.2% of the supply in 2020 and averaging 15.5% between 2000 and 2020. IEA. All rights reserved.

How has Tajikistan improved its energy security?

In addition, from 2018, Uzbekistan restarted gas exports to Tajikistan while Tajikistan has resumed electricity exports to Uzbekistan. In order to improve its energy security (i.e. to deal with HPP seasonality and natural gas shortages), Tajikistan has been actively adding coal-fired generation.

Tajikistan TJ: Energy Consumption: % of Total Energy Consumption: Transport data is updated yearly, averaging 4.000 % (Median) from Dec 1990 to 2020, with 31 observations. The data reached an all-time high of 22.490 % in 2014 and a record low of 1.020 % in 2000. Tajikistan TJ: Energy Consumption: % of Total Energy Consumption: Transport data ...
