In February, it launched its One Million Solar Homes initiative to provide the sun's power to 1m properties by 2017. Off Grid Electric, the Tanzanian company implementing the initiative, says it will provide power to 10% of the country's homes. Currently, only 40% have access to grid power with access particularly sparse in rural areas. The challenge across Africa is daunting.

Through the expansion of more secure solar panels, the reduction in stolen products will be significant, and the security of investments greatly improved. The final problem is managing parts of the solar panels after they are no longer ...
