What is Leclanch's modular battery storage solution?

Aimed at reducing the cost, complexity and environmental footprint of stationary energy storage system (ESS) installations, Leclanch has launched a modular battery storage solution based on easily transportable, plug and play racks that can be put together onsite.

Does Leclanch offer a battery energy storage system?

Leclanch will also be providing the battery energy storage system (BESS) for the on-shore recharging system for the Damen ferries. This turnkey approach offers significant benefits to future shipbuilders, ports and harbor authorities seeking a frictionless way to accommodate these state-of-the-art vessels.

Will Leclanch build a fully electric ferry?

Leclanch is partnering with Dutch shipbuilding group Damen to build the battery storage systems for two passenger/car ferries that will be the first in North America with the ability to operate fully electric with propulsion systems powered by batteries of 1.9MWh and 4.6MWh capacity respectively.

How does Leclanch work?

Leclanch's 2.35MWh capacity batteries are configured for the 800-passenger vessel's operation while in port without using main engines. The energy storage system is charged from shore power, which is also used for the vessel's other power needs during its stay in harbor.

What makes Leclanch E-ferry unique?

Leclanch's innovative marine rack system (MRS), where the storage system resides, is marine-type approved by RINA and DVN-GL and makes the e-ferry remarkable in many ways. It was designed from the ground up with a key focus on safety at all levels.

How does the Leclanch EMS system work?

The Leclanch EMS system automatically activates to detect and suppress a fire in the batteries, preventing it from spreading to the cells. It can also be manually activated by first responders or automatically triggered by internal safety features and battery anomalies detected by the Leclanch EMS.

LONG BEACH, Calif. and YVERDON-LES-BAINS, Switzerland, 10 th January 2022 - LeBlock TM, the breakthrough energy storage solution introduced by Leclanch SA (SIX: LECN) in mid-2021, makes its North American debut at the upcoming Energy Storage North America (ENSA) conference and expo, from January 13 to 15, in booth 751.

Rome/Berlin, May 16 th, 2019 - Today, Enel's subsidiary Enel Green Power Germany (EGP Germany), the German renewable energy company ENERTRAG and the Switzerland-based energy storage solutions

company Leclanch&#233; inaugurated the 22 MW Cremzow Battery Energy Storage System (BESS), located in Cremzow, in the German state of Brandenburg.

Swiss energy storage company Leclanch&#233; has broken ground on a US\$70 million solar and storage microgrid project in St Kitts and Nevis. The system will include a 35.7MW solar farm and a 14.8MW lithium-ion battery energy storage system (BESS) with a capacity of 45.5MWh, providing state-owned utility St Kitts Electric Company (SKELEC) with ...

The hybrid system combines 8.8MW / 7.12MWh of lithium-ion batteries with six flywheels adding up to 3MW of power. It will provide 9MW of frequency stabilising primary control power to the transmission grid operated by TenneT and is located in Almelo, a city in the Overijssel province in the east Netherlands.

Swiss energy solutions company Leclanch&#233; has released XN50, the world's first commercial Li-ion cell with a niobium-based active anode material, the company said in a statement. Supplied by the UK's Echion Technologies, the XNO trade-marked material enables 50% higher energy density than LTO technologies (lithium-titanate or lithium-titanium-oxide), ...

Construction has begun on a solar-plus-storage project on the Caribbean island of St. Kitts & Nevis, backed by Leclanch&#233;, Solrid and MPC Energy Solutions. The launch of the SOLEC power plant is nearly 18 months later than expected with the start of construction first announced back in December 2020, covered by Energy-Storage.news.

Leclanch&#233; SA, one of the world's leading energy storage companies, announced half-year results for the six months ending 30 June 2024 (the period), reflecting management's and the board's strategic focus to position the Company for future growth. (in million CHF)H1 2024H1 2023Income5.68.9EBITDA loss-19.2-26.2Net loss for the Period-27.2 ...

First Energy Storage Project in U.S. - Leclanch&#233; to serve as overall engineering, procurement and construction contractor ... E-Mail: florent.gaillard@leclanche North America . Page 3/3 Richard Anderson / Henry Feintuch Feintuch Communications Tel.: +1 (718) 986-1596 / (212) 808-4901

Leclanch&#233; SA is a world leading provider of high quality energy storage solutions using lithium-ion cell technologies to accelerate our progress towards a cleaner energy future. Leclanch&#233; is the only listed pure play, energy storage company in the world and is ...

Leclanche SA is a Switzerland-based company that specializes in the electrical energy storage industry sector. The Company is organized into three business segments: the Portable segment conceives, develops and carries out turn-key solutions for storage of portable electrical power for specific applications; the Distribution segment commercializes batteries, as ...

Leclanch&#233; Renewable + Storage systems allow customers to confidently incorporate renewable generation into their energy resources and integrate them directly using Leclanch&#233;'s smart EMS software. These scalable solutions ...

Further upstream, the company also made a recent swoop to acquire energy storage software specialist Demand Energy. On the 22MW project in Brandenburg, Joerg Muller, head of the board at ENERTRAG said it would help "play an essential role in safely phasing-out lignite in the state of Brandenburg".

Leclanch&#233;'s e-Transport Solutions team powers the electrification of transport (trains, vessels, trucks and more) through efficient, proven and reliable energy storage solutions. [Learn More](#) This group creates custom low-voltage battery systems for a wide range of demanding applications.

Oneida Energy Storage LP is a joint venture between NRStor and Six Nations Grand River Development Corporation. It plans to deliver the Oneida Energy Storage Project, a 250 MW / 1000 MWh energy storage facility in Southwestern Ontario, which would be the largest project of its kind in Canada.

UK private equity firm Pinnacle International is advancing a due diligence process related to a planned strategic partnership with Swiss energy storage solutions provider Leclanche SA ( SWX:LECN ) that envisages the ...

Saft energy storage system to support New Zealand's transition to low-carbon electricity. 18/09/2022. Saft's new Intensium-Shift battery storage system: 30% more energy, lower footprint, maximizing renewable integration . 30/08/2022. Saft powers the transition of small Italian islands to renewable energy .

Leclanch&#233; is partnering with Dutch shipbuilding group Damen to build the battery storage systems for two passenger/car ferries that will be the first in North America with the ability to operate fully electric with propulsion ...

As reported by Energy-Storage.news earlier this month, the president attended a ceremonial switch-on event for a grid-scale battery storage installation as it came online for power company SMC Global Power.. SMC Global Power is building 1,000MW/1,000MWh of battery energy storage system (BESS) assets, deploying them at the sites of existing thermal ...

Swiss energy solutions company Leclanch&#233; has released XN50, the world's first commercial Li-ion cell with a niobium-based active anode material, the company said in a statement. Supplied by the UK's Echion ...

The Navius MRS-3, is Leclanch&#233; latest generation of marine battery system, specifically designed for the supply of on-board energy storage in marine applications. It comprises the latest generation Leclanch&#233; M3 Energy battery modules fitted with our proprietary high energy G/NMC cells, a

Functionally Safe Battery Management system and is ...

In cooperation with our partners, we provide complete turnkey Renewable + Storage solutions. These solutions feature Leclanch&#233; custom-engineering Electricity Energy Storage Systems (EESS) alongside best-in-class renewable energy generation assets. Our integrated solutions reduce energy costs while providing clean and reliable electricity to our customers.

The Swiss battery cell and energy storage technology group launched LeBlock, its latest modular BESS solution, in 2021. Energy-Storage.news" publisher Solar Media will host the 6th Energy Storage Summit ...

Leclanch&#233; is providing its state-of-the-art lithium-ion battery energy storage system (BESS) to allow the island to transition to safe, clean, renewable energy and increase the reliability and ...

Aimed at reducing the cost, complexity and environmental footprint of stationary energy storage system (ESS) installations, Leclanch&#233; has launched a modular battery storage solution based on easily transportable, ...

YVERDON-LES-BAINS, Switzerland and LEVICE, Slovakia, 13 th February 2024 - Leclanch&#233; SA (SIX: LECN), one of the world"s leading energy storage solutions companies, and Tesla L.H., a Slovakian equipment manufacturer and solutions provider, have successfully completed their collaboration and commissioned a novel energy storage system ...

Energy Management System (EMS) o Control and monitoring of the entire energy storage system. Easy to transport & install o Once combined, a group of 4 LeBlock CombinerBlocks, BatteryBlocks and/or ThermoBlocks is transformed into a 20-foot, ISO-certified container which can be easily transported o Reduces the cost, complexity,
