Tokelau is one of the smallest, most remote countries on the planet. With no ports, harbours, or airstrips, Tokelau is only serviced by a multi-day ferry from Samoa, which has to be met by barges from the atolls to transfer cargo and passengers. No significant land is more than two metres above ordinary high tides. This means Tokelau is particularly vulnerable to the predicted rise in ...

Dozens of boats destined for Tokelau have been sitting in storage for more than three years in New Zealand due to shipping delays, frustrating families on the atolls who are dependent on the vessels.

The ship has cold chain storage onboard, keeping the vaccines at the required temperature for the transit, and Tokelau health officials have developed their own programme to roll out the vaccine ...
