Is there a state of emergency in Tonga?

A State of Emergency was declared in Tonga on 20 March 2020 by the government of the Kingdom of Tonga and has been renewed until 8pm on 7 June 2021. The borders of Tonga are closed to entry to all foreign nationals, except if authorization is granted by the relevant Tongan government authorities.

Did Tonga get a tsunami alert?

The Tonga Meteorological Services re-instituted a tsunami alert for all of Tonga in the early evening of Saturday, 15 January. Tsunami alerts were issued for Fiji, Samoa, and other neighbouring areas. In Tonga, tidal waves were seen to inundate coastal roads and properties at 2.7 feet (0.82m).

Why is communication with Tonga down?

Communication with Tonga has been down since 18:30 on Saturday 15 January. It is presumed that the undersea internet cable to Tonga from Fiji has been damaged, although the responsible cable network has not been reachable for comment. The fibre optic cable was previously severed in 2016 and took two weeks to restore.

What happened in Tonga in 2022?

The volcano was declared dormant on 11 January 2022. The volcanic activity restarted on 14 January 2022, with volcanic ash, steam and gas erupting 5-20km above sea level. This led to a generation of small tsunami waves of 30cm. A tsunami alert was initiated by Tonga Meteorological Services and then later lifted on the same day.

Where is a volcano in Tonga?

The volcano is located in an uninhabited area, some 65 km north of Nuku'alofa, Tonga's capital. A 16km high ash cloud formed. Advice was given to people in Tonga to protect water tanks from possible acidic rainfall in both Tonga and Fiji. The volcano was declared dormant on 11 January 2022.
