

# Top 10 solar Cyprus

Where can I find solar energy in Cyprus?

The solar energy and installation companies can be found in all of the major cities throughout the island, including Nicosia (the capital), Limassol, Larnaca, Famagusta and Paphos. In 2011, the Cypriot target of solar power including both photovoltaics and concentrated solar power was a combined 7% of electricity by 2020.

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

Does Cyprus support photovoltaic systems?

The government of Cyprus, along with the RES and Energy Conservation Fund, offers support schemes for the installation of photovoltaic systems. This is because solar power is considered to be the future of energy and promoting the use of renewable energy sources is a priority.

Who installs solar panels in Cyprus?

Cypriot solar panel installers - showing companies in Cyprus that undertake solar panel installation, including rooftop and standalone solar systems. 49 installers based in Cyprus are listed below.

What is a commercial photovoltaic system in Cyprus?

Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption. That is, the energy generated by the solar panels is solely used for the building where the panels are installed.

What incentives are available for installing photovoltaic systems in Cyprus?

Homeowners in Cyprus can take advantage of several incentives for installing photovoltaic systems, including the recently announced Grant Scheme for the installation of photovoltaic systems, which provides financial incentives for the installation of photovoltaic systems.
