The best solar companies in Georgia are Tesla and Palmetto Solar based on our research of customer satisfaction and service quality.

How many solar panels does Peach State have?

The Peach State has installed 5,485 megawatts of solar capacity, enough to provide electricity for over 656,000 homes. The MarketWatch Guides team ranked the best solar companies in Georgia based on several factors, such as equipment quality, service offerings and warranty terms.

How do I choose a solar company in Georgia?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Georgia, a solar installer must be associated with a licensed electrical contractor.

How much do solar panels cost in Georgia?

Solar panels cost about \$2.72 per watt, which is relatively low compared to other states. The cost of installation depends largely on the size of the system you're installing. In Georgia, for a solar panel system of 10 kilowatts, the total cost will be around \$27,000. Your prices will drop after you apply the 30% federal tax deduction.

Are solar panels a good investment in Georgia?

With solar panels, you reduce your consumption of fossil fuel electricity. Long payback period: Because Georgia has below-average electric tariffs, the savings per kilowatt-hour of solar electricity are also lower. As a result, your solar payback period can extend to more than 10 years.

Which company offers the best solar solutions?
