Who is building the largest solar project in Trinidad and Tobago?

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource to begin construction of the largest solar project in the Caribbean.

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

Who were the speakers at the Trinidad & Tobago Conference?

Also speaking at the event were David Campbell, President of bp Trinidad and Tobago and Eugene Okpere, Senior Vice President and Country Chair of Shell Trinidad and Tobago, The Minister of Public Utilities Marvin Gonzales and Chairman of T&TEC, Romney Thomas.

Aim of the paper is to evaluate the benefit of a renewable energy initiative for Trinidad and Tobago. Trinidad and Tobago have abundant natural gas, a highly developed power generation system almost entirely based on combustion fuels, high solar irradiation, but skies often covered by clouds, a detrimental factor for concentrated solar power technologies.

Solar is OK, but you can't feed the grid solar. Not worth it. Better for people to put it on their own roofs to reduce their own grid consumption. Oil and gas electric production isn't that bad. How else are you going to get petro chemicals? Plastics etc? And the infrastructure already exists. As our energy consumption grows yea add an offshore ...

Brechin Castle Solar Farm. 92 MW. Trinidad and Tobago. The proposal involves a consortium of Lightsource bp, bp and Shell working together to develop a solar installation that will have an output power capacity of 92MW (Megawatts) in Trinidad and Tobago. See project

Ideally tilt fixed solar panels 10°; South in Arima, Trinidad And Tobago. To maximize your solar PV system's energy output in Arima, Trinidad And Tobago (Lat/Long 10.6356, -61.2834) throughout the year, you should tilt your panels at an angle of 10°; South for fixed panel installations.
