

# T&#252;rkiye ampion energy

What is ampion community energy?

Ampion began in 2014 in Bar Harbor, Maine with the premise that the future was renewable energy and that it would be available to anyone who wanted it. At the time, community energy was a new idea and more concept than reality. Today, much has changed.

Can T&#252;rkiye utilise its rooftop solar potential?

T&#252;rkiye can utilise its rooftop solar potential to catch up with installation rates in EU countries and get on track to meet its clean energy targets. Rooftops in T&#252;rkiye have a technical potential of 120 GW and can meet 45% of the country's total electricity demand.

What happened to natural gas in T&#252;rkiye in 2023?

Consequently, T&#252;rkiye witnessed a reduction of approximately 50% in the cost of electricity generation from imported coal in 2023 compared to the previous year. The price of natural gas did not fall at the same rate, meaning natural gas lost its cost advantage over imported coal as of September 2022.
