What weight of battery can the system support? As it's modular, we've design MOD.RACK to support batteries from 500kg all the way up to 1500kg. You can mix and match between battery types and still have a higher density battery room. From Powered Pallet Trucks to Reach Trucks the MOD.RACK has the flexibility to accommodate your entire fleet.

The modular battery racking system can be specified to accommodate any battery cell type om flooded batteries to sealed, from lead-acid to nickel-cadmium, from vertical to horizontal mounting, a high density, space-saving rack can be provisioned. Exponential Power can size an appropriate battery rack storage system for your application, from heavy duty battery racks to modular ...
