

# HomeGrid powered by Lithion

Who is HomeGrid powered by?

HomeGrid is powered by Lithion, a global battery manufacturer. Lithion is a brand that specializes in Smart Energy and manufactures best-in-class residential battery energy storage systems. HomeGrid has 3,029 followers on LinkedIn.

Which HomeGrid battery is right for You?

With the highest output and capacity range available, the Stack'd Series battery is the right solution for residential and small commercial storage projects. From small off-grid cabins, to peak rate TOU (time-of-use) offset, family homes in suburbia, and small commercial projects, the HomeGrid Stack'd Series battery is the proven best choice.

Why did Lithion buy HomeGrid?

Lithion acquired HomeGrid after seeing the outstanding quality of the products and the value that it brought to communities during natural disasters and power outages. With Lithion's backing, HomeGrid has been able to scale throughout the United States, and now has launched into Europe and Central/South America.

Does HomeGrid offer heated battery modules?

For colder climates, HomeGrid offers the option of heated battery modules in the Stack'd Series system. These heated modules will automatically keep the batteries within operating temperatures to make sure that capacity is maintained, and the batteries' function is optimized, even in the coldest of conditions.

How do I become a certified HomeGrid installer?

Become a certified HomeGrid Installer through our immersive online trainings. Explore new opportunities with the HomeGrid product line. This course is perfect for distributors and other industry professionals looking to expand their knowledge and begin selling our products.

Does HomeGrid make Mariah Carey batteries?

HomeGrid makes the Mariah Carey of batteries; they've got range. Why trust EnergySage? As subject matter experts, we provide only objective information.
