

U S Virgin Islands nexon energy

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

What is the main source of energy in the Virgin Islands?

In the U.S. Virgin Islands, nearly all of the energy is provided by imported petroleum products, with about 70% of petroleum consumption being distillate fuel and residual fuel.

Do you need a solar water heater in the Virgin Islands?

Since 2009, new construction and major renovations in the Virgin Islands have required solar-powered water heaters to provide 70% of a building's heated water needs.

Does the Virgin Islands need a new air pollution permit?

The U.S. Environmental Protection Agency ordered the owners of the US Virgin Islands' refinery to obtain a new air pollution permit before the facility could resume operations on November 2022. The US Virgin Islands' utility is shifting from fuel oil to propane to generate electricity and produce public drinking water.

In contrast, Exxon's \$1.28bn deal with Seplat Energy has been awaiting approval since February 2022. Now, with the regulatory nod, Seplat is set to acquire significant assets including a 40% stake in four oil mining leases and the Qua Iboe export terminal, as well as a 51% interest in the Bonny River natural gas liquids recovery plant.

V.I. Energy Office taking applications this week for low-interest loans so homeowners can install solar power and battery storage systems.
