

What is Uganda's energy plan?

The objectives of the plan, stated by Uganda's Ministry of Energy and Mineral Development (MEMD), are: Provide universal access to electricity and cleaner cooking by 2030. Modernise and diversify Uganda's energy mix and promote its efficient use across all sectors to support industrial growth, poverty reduction and socio-economic transformation.

What is Uganda's energy transition plan?

Uganda's Energy Transition Plan (ETP) is a strategic roadmap for the development and modernisation of Uganda's energy sector. It charts an ambitious, yet feasible pathway to achieve universal access to modern energy and power the country's economic transformation in a sustainable and secure way.

What is Uganda's integrated energy resource master plan?

The plan was developed by Uganda's Ministry of Energy and Mineral Development, with support from the International Energy Agency, and provides the groundwork for the government's upcoming Integrated Energy Resource Master Plan.

How will Uganda's energy system grow in 2040?

The power sector becomes the backbone of Uganda's energy systems, with all growth met by low-emissions sources. Electricity rises to become the single largest source of energy consumed by 2040, growing to reach 56% of total final consumption by 2050.

How can Uganda improve energy access?

Uganda has a large community of international development partners in the energy sector. Better co-ordination and management of international donor support to facilitate improved energy access and better value for money and the reduction of duplication would benefit Uganda significantly.

Can Uganda become a regional energy supplier?

Uganda has plans to develop nuclear power and is in Phase 2 of the IAEA's Milestone Approach, with plans to bring on the first facility in the early 2030s. A strengthened, interconnected grid is essential to Uganda's vision to become a regional energy supplier.

Against the background of high deforestation rates and firewood scarcity in Uganda, the Ministry of Energy and Mineral Development, with the support of the German Agency for International Cooperation (GIZ) through the Energy ...

Solar Energy Uganda Ltd in partnership with Solar Light Churches for Africa installed a number of PV systems. However, the efforts were uncoordinated and lacked after-sales support. In 2001, the Government launched the Rural Electrification Strategy and Plan (RESP) for the years of 2001 to 2010. It expired in 2012

due to delayed implementation.
