

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an agrivoltaic system on Vatican-owned land in Santa Maria di Galeria, located just outside Rome.

ROME - The Vatican's chief prosecutor has strongly defended the integrity and fairness of the city state's justice system following criticism that Pope Francis' absolute power and his ...

Pope Francis promulgated Law No. CCCLI on the judicial system of Vatican City State, updating Law No. CXIX of 21 November 1987 and subsequent amendment by Law No. LXVII of 24 June 2008. The Law was published by the ...

Vatican: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. ... we want to transition our energy systems away from fossil fuels towards low-carbon sources. ... Nuclear power - alongside renewables - is a low-carbon source of electricity ...

3. Vatican City. The Vatican City is not part of Italy or Rome. The Vatican is the last true remnant of the Roman Empire. The State of Israel is also said to be a Roman outpost. The Vatican's wealth includes investments with the Rothschilds in Britain, France and US and with oil and weapons corporations as well.

Pope Francis on Saturday issued a new constitution of the Vatican City State that further emphasizes the power of the pope over the sovereign state. The new constitution, called "the Fundamental Law of Vatican City State," is the third in history and replaces a law promulgated by St. John Paul II in 2000.

The Fundamental law of the Vatican City State of 13 May 2023 defines legislative and executive functions as follows: "LEGISLATIVE FUNCTION" ARTICLE 7. The legislative function, except in cases that the Supreme Pontiff intends to reserve to himself, is exercised by the Pontifical Commission of Vatican City State. ARTICLE 8

The Vatican City State remains, in the end, the pope's domain. Nonetheless, the new law suggests that the city-state is no longer merely considered a support to the Holy See but an entity closer to the secular and modern states, as it has never been in the past.

The authors illustrate the work made to design and realize the security telecommunication system of the Vatican City State. The security of a modern state is strongly related to the telecommunication system of the State itself. Any weakness of the system involves a weakness of the security of the State. For this reason it is necessary to design and realize ...

The State thus has the unique characteristic of being an instrument of the Holy See and the Catholic Church's independence from any established power. In a way, it is the sign of the supernatural nature of the Church herself, since the structures of Vatican City State are reduced to the bare minimum required to carry out its functions.
