We have a 50kw Solar System and Solaredge monitoring on a 3 phase supply in the UK We also have a 100kw Biomass system which uses a 3000 ltr hot water storage/energy tank heated by wood chip The tank has a possibility of using a 12kw Three Phase heating element which we

All about the eddi solar diverter. eddi is a solar power diverter that helps you to make the most of your self-generated power rather than exporting it back to the grid. Bring an eddi into your home and you can make the most of the 100% green energy generated from your solar PV or wind generation system. Without a solar power generator, you ...

They have the Synergy standard tariff that charges 28.3 cents per kilowatt-hour. Their solar feed-in tariff is 7.1 cents. They have a solar power system of 5 kilowatts capacity or ...

A solar power diverter is a smart device used with solar panels and a hot water immersion heater. It directs excess electricity generated by solar panels to an immersion heater to heat water, rather than exporting it to the grid. This allows you to get the most out of your solar electricity, and means you don't have to rely on the grid as much ...

As for the cost of the SunMate 3.0 solar hot water diverter, that hasn't been provided, but the 2.0 is around \$850 for the single phase model and \$1,250 for the three-phase; plus installation. AWS isn't expecting to be cranking out huge volumes of the new diverters - the estimated number of SunMate 3.0's produced "will grow to 1,000 ...

There is also remote control if the homeowner is away from the property or they are a landlord for a rental property. (Single-phase version currently available, 3-phase version due out in March.) Red CATCH - Solar diverter with internet connection, three-phase and load capacity of 7.2kW, and a primary focus for commercial applications. (This ...

3 Phase Solar Power Diverter I bought the 3X model solar powerdiverter, which is recommended for 3 phase homes. This product around June 2024 was the only model I could find in the Australian market to meet my 3 phase metering ...

myenergi eddi 3 Phase - Energy Diverter (wifi enabled) Part No: MYEN-EDDI-16A3P02H . Supplier: myenergi ... Your way. eddi is designed to help you maximise the consumption of your self-generated solar / wind power. A solar photovoltaic (PV) system without an eddi is a like a car without a steering wheel or driver. Without an eddi, you have no ...

There"s no cross phase load utilisation, so if phase-A has a surplus only the phase-A Eddi would consume it. Each is independent, there may be a bug at the moment in that phase-A is the reference for grouped devices, then only the surplus on phase-A is used as a value across the other two phases, that might be what your seeing.
