

Vilion has its core team composed of the original BYD engineers who are obsessed with BESS integration technology. The founder of Vilion and the core members have been committed to the electrochemical ESS R&D since 2007 and they have successively delivered over 2GWh energy storage projects and developed or participated in the implementation of more than 100 battery ...

As the 1st batch of developers dedicated to BESS applications and solutions, Vilion is still striving forward to cooperate with all societies to create the more efficient and intelligent energy ...

At present, Vilion 's products have been applied across 5 continents and more than 30 countries. As the 1st batch of developers dedicated to BESS applications and solutions, Vilion is still striving forward to cooperate with all societies to create the more efficient and intelligent energy system and the endless blue sky!

Violin Bass Guitars are designed to have a hollow body and these are very light in weight which makes them easier to be carried and played. These have been used by the professional for a long time and even these days these are a preferred choice of many. Their trend is rising and the number of people who wants to learn this commendable musical ...

Vilion offers customized Battery Energy Storage System (BESS) solutions tailored to your project's specific application, providing flexible power and capacity options. Application: frequency regulation, voltage support, renewable energy integration, peak load shifting, microgrid and backup power supply.
