

Who owns Statkraft power in Peru?

Statkraft's operations in Peru started in 2003 when SN Power, then owned by Statkraft and Norfund, purchased the company Cahua, which operated the Cahua, Pariac, Gallito Ciego and Arcata hydropower plants. In 2008, Cahua merged with company Electroandes, which operated four hydropower plants (Malpaso, Yaupi, Pachachaca and La Oroya).

Who is wattkraft?

15. July 2024 Wattkraft is a dedicated brand ambassador and specialises in inverters, photovoltaic modules and system integration.

How many hydropower plants are there in Peru?

Our nine hydropower plants in the country have a combined output of 450 MW of 100 per cent renewable energy. Statkraft's operations in Peru started in 2003 when SN Power, then owned by Statkraft and Norfund, purchased the company Cahua, which operated the Cahua, Pariac, Gallito Ciego and Arcata hydropower plants.

What happened to SN Power Peru?

In 2014, Statkraft purchased an additional 7 per cent of the shares of Norfund, thus increasing its interest by 67 per cent of the company's total shareholding. After this purchase, SN Power Peru was renamed Statkraft Peru and took over the company's asset management.

How much energy does Peru generate per year?

In Peru, we generate approximately 2,500 GWh per year, which is equivalent to providing lighting for more than 1,800,000 Peruvian households. In the areas that we operate and indirectly influence, we have contributed to 53 communities and more than 30,000 beneficiaries through our Social Responsibility projects.
