

Yilink Energy is dedicated to designing and manufacturing most safe, best-performing lithium battery, LiFePO₄ battery and Li-polymer battery for your residential or commercial solar energy storage system, motorbike, electrical products projects. Your trustworthy partner on ...

Our mission is to provide the most reliable, durable, safest, and most advanced lithium battery system for your project. This is what we have been doing for 16 years, and it is also something we will always be committed to in the future.

On June 14-16, 2023, Intersolar Europe 2023 was held in Munich, Germany. Yilink New Energy brought a number of energy storage lithium battery products to the exhibition. Intersolar Europe 2023 Intersolar Europe 2023 is one of the largest and most far-reaching professional solar energy system exhibiti...

Lithium battery management system suitable for lifepo₄ battery pack from 8S 24V to 15S 48V. Integrated Seiko IC, MOS, NTC, which prevent lithium battery pack from over-current, over-temperature, short-circuit, under/over-voltage.

Portable Power Station Advanced Lithium Technology Solid-state Battery YILINK Your plug and play lithium power station Yilink portable power supply that integrates smart lithium bateres, inverter, and MppT. It can bring super long, stable, and high-efficiency power to you electronic products in a portable and convenient way.

YiLiNK high-voltage battery system integrates premium high-cycle lithium iron phosphate cells and battery management system with multiple levels of protection and monitoring. The modular design and multiple levels of control allow you to meet a wide variety of backup needs for residential sites, commercial sites, industrial areas and communities.

YILINK 48V telecom battery is born from the idea that it can provide base station with reliable, long-cycle span, all-round intelligent management, self-protecting and safe green energy at economic way. Its application is as wide as to include ...

iPower series lithium iron phosphate batteries are developed and manufactured by YiLink Group. It is specially tailored for energy storage system, it offers a greater efficiency, higher reliability, intelligent battery management system, intelligent battery monitoring system, long lifespan to your solar energy backup.

This is what we have been doing for 16 years, and it is also something we will always be committed to in the future. At YILINK, from ultra-thin 3.7V battery to MW battery energy system, you can always find the best-fit lithium battery solution for your application, anywhere, anytime.

Built-in integrated EMS, BMS, and inverter master control triple safety protection; Globally integrated monitoring and management, APP one-click registration;. Freely set the priority order of battery power, city power, and photovoltaic;. 10ms seamless switching between on-off and off-grid, and never power on;. It can automatically determine the off-grid/on-grid mode (support ...
