Can Zambia become a power surplus & exporter of electricity?

Kayumba said the initiative will enable Zambia to become power surplus and exporter of electricity. He continued: "The Africa region faces a power deficit of more than 10,000 MW. Zambia can earn export income when the solar power projects are commissioned and electricity exports commence.

What is Zambia's energy mix?

Zambia's energy mix is dominated by hydropower, which accounts for 90 percent of the installed 3,500 MW power generation capacity. As a result, a prolonged drought has deeply impacted water and energy availability for households and industries. Adler said SkyPower is working with banking syndicates to commence construction next year.

Will the PPA support Green Giant Zambia?

The PPA will support Green Giant Zambia initiative, which aims to supply electricity to around 4 million homes, create jobs and increase renewable energy capacity.
