Who owns CG Power Systems?

CG Power Systems, which makes distribution transformers for utilities such as ESB Networks, was formerly part of the Avantha Group. It is being acquired from liquidators who were appointed to its direct parent CG Power Systems Belgium, following difficulties in the wider group, reports The Irish Times.

Are CG Power Systems Transformers reliable?

CG Power Systems transformers are renowned for their high performance and proven reliability. They are optimized to meet customer specifications with respect to energy losses, noise levels, dimensions and weight. The CG Power Systems range of transformers has achieved top rank status in terms of energy efficiency, noise level and compactness.

What is CG Power Systems Group?

The CG Power Systems Group is a market-driven organization. The company is structured to ensure the shortest possible lines of communication between customers and Group companies.

Does CG manufacture distribution transformers?

CG currently manufactures a range of distribution transformers and a diverse range of industrial applications - electrical vehicle charging stations, battery storage, solar, tidal, and both onshore and offshore wind farms. "We expect and are hopeful, that higher levels of growth will drive increased demand for distribution transformers," they say.

Who is cgpsl?

CGPSL is the first Indian manufacturer to develop and supply coupling transformers for dynamic reactive power compensation (DRPC) applications like static synchronous compensator (STATCOM), Static VAR Compensator (SVC) etc & also the first manufacturer of 132KV Green Transformers in INDIA.

Is CG Power Systems ISO 9001 certified?

As a consistent guarantee of the highest quality, CG Power Systems works closely to ISO 9000 standards, and has achieved ISO 9001:2000 certification for all its production plants. The CG Power Systems Group is a market-driven organization.
